Experienced Presentation Techs

Our in-trial techs ensure every exhibit appears clearly, instantly, and precisely when needed. We manage all presentation technology—documents, photos, video, and demonstratives—so your team stays focused on argument. With sharp call-outs, smooth transitions, and courtroom-ready formatting, your evidence lands with confidence and impact.

Courtroom Equipment Support

Our in-trial techs manage all courtroom technology—delivery, setup, testing, full operation, plus remote-witness connections. We control switchers, keep jury screens blank until publication, and ensure flawless routing, audio, monitoring, and video feeds. With a stable, secure environment under our watch, your team stays fully focused on the case.

Admitted Exhibit Tracking

Our techs maintain a live system tracking every exhibit—admitted, marked, or published—to keep proceedings aligned with the court record. We update digital logs, coordinate with counsel and the clerk, and ensure fast, accurate access, supporting smoother examinations, quicker call-ups, and confidence that nothing is missed throughout trial.

On-Site Wifi and Printing

We bring a dedicated printer and scanner to every trial, with secure on-site Wi-Fi available when needed, giving your team instant, in-courtroom document support. From printing updated exhibits to scanning newly marked materials, we handle it on the spot so your documents stay precise and courtroom-ready.

Deposition Clips

We manage all video and audio playback with precision, prepping and testing every file for courtroom compatibility. From surveillance footage to animations and synchronized video depositions, we cue clips instantly with clean audio and smooth transitions—ensuring your evidence appears exactly as intended while you stay focused on substance.

24/7 Pre-Trial Support

Our team provides true 24/7 support—even nights, weekends, and holidays—so you're never without technical coverage when deadlines tighten or trial demands shift. Whether troubleshooting, prepping exhibits, or managing last-minute changes, we respond immediately and keep your presentation moving. Whenever you need us, we're on call and ready.

Courtroom Inspection

We coordinate with courtroom staff to assess technology, and courtroom procedures before trial. Our team evaluates existing audio-visual systems, tests connectivity for remote witnesses, and recommends supplemental equipment as needed—identifying and resolving potential issues early to ensure a reliable, courtroom-ready presentation from day one.

Printing Support / Exhibit Binders

Your single point of contact for all your trial printing needs.

From large-format exhibit printing and deposition sets to attorney trial binders and multi-location delivery, TrialSupport coordinates trusted print vendors, competitive pricing, and on-time execution—so your team stays focused on the case.
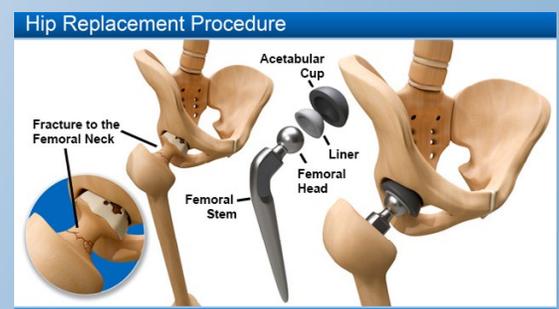

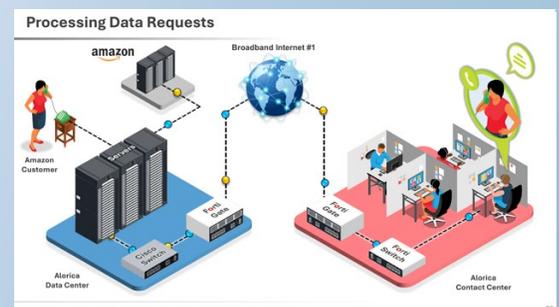

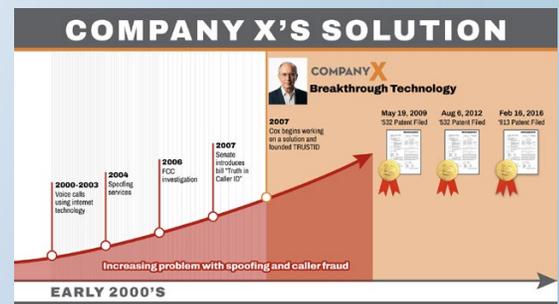

TrialSupport: Graphics & Animation

Clean, Crisp, Simple Graphics to Persuade Jurors.

Our dedicated team of designers are an integral part of the pre-trial process. Our coordinated approach means everyone has access to all trial exhibits and data needed to understand the case issues and create amazing and compelling graphics. You can work directly with your designer to help persuade, inform and educate the jurors and Judge. Our services are varied, so reach out to your primary contact to help us understand your needs and assign the right team member.

High Definition TVs

Make your visuals impossible to ignore. Our large-format HD displays (75-100 inch) deliver sharp, vivid evidence presentation — ensuring every juror sees every detail clearly.

Lay Flat-Monitors

Built for trial teams who need immediate, unobtrusive access to digital exhibits. These sleek lay-flat monitors sit directly on the table, allowing attorneys and paralegals to review, annotate, and reference materials efficiently during prep or live proceedings.

Speaker & Microphone

Command the room. Our audio setup delivers clear, professional sound so your presentation comes through with authority — whether addressing the jury or opposing counsel.

Over 100 Optional Items

Customize your courtroom with over 100 optional tools, including HDMI matrix control, 4K fiber-optic cabling, high-lumen projectors, secure cable management, and mobile library carts. Every component is selected to enhance clarity, control, safety, and efficiency—ensuring your trial environment is fully optimized for seamless presentation and movement.
